Chairs & Stools

To specify your item

Check the Standard Features & Finishes and select the Model you require

Select the Fabric Grade for the fabric you are using, this will give you the basic price per item

Select any Optional Extras or Alternative Finishes you require and add on any extra costs as shown per chair

You now have the total cost and specification for your Item

When ordering, please ensure that you send us all this information, so we can correctly fulfil your requirements.

Axyl

Design – Benjamin Hubert | Layer

Axyl is a seating collection offering a sophisticated combination of recognizable elements. Comprising of an arm chair and stool, Axyl utilizes a strong geometric design language that is entirely original yet draws on familiar references to create a range of highly functional seating.

Circo

Design – Justus Kolberg

Circo is a functionally simple light work chair for ad hoc touch down environments. Featuring a permanently floating action and a mesh back that morphs to support the user. Circo is suitable for both conference and meeting environments.

Circo's designer Justus Kolberg worked closely with toolmakers and injection moulders to exploit the latest technical possibilities of a complex single piece frame. The result is a chair that's tremendously strong but that weighs just over 19 pounds.

Circo Motion

Design – Justus Kolberg

irco multi-purpose chairs are designed to provide a universal solution for meeting and conference uses. They share a common design language with the original Circo conference chair but the proportions have been scaled to make them more applicable in use.

Featuring a mesh back and a fully upholstered seat, these versions provide either a stacking cantilever frame or a four leg frame on casters.

Crop

Design – Layer

Crop is a family of outdoor chairs and stools named after the enigmatic rolling fields of crops in the British countryside, which are represented in the flowing parallel wires of the seating forms. The durable seating is suitable for al fresco dining and socialising in a variety of hospitality, commercial and residential settings.

Curve Dining

Design – SmithMatthias

Curve is a modern interpretation of a classic dining chair, designed by SmithMatthias.

Its bold frame complimented by a soft entwining seat, provides the eye with a firm yet light silhouette. Evolved from the Curve Lounge Chair, Curved Dining carries forward the same sculptural language: Carefully considered components that create a cohesive design identity.

Jaicer

Design – Allermuir

When designing Jaicer, we set out to create a simply beautiful chair that was constructed entirely from wood. Jaicer has been created to work across a multitude of environments; be it for ad hoc use in a contemporary workplace, as an elegant statement in a meeting room or as a café or dining chair in a modern corporate or hospitality environment.

Kin

Design - PearsonLloyd

Kin is a family of elegantly strong mono-shell seating and 'family' was the ethos from the very beginning. Often, a range develops from an original design for a single piece and is then stretched to apply to other furniture, but Kin's purpose was to be one coherent and harmonious collective. So, there are no poor cousins, just strong, compelling characters allowed to thrive alone and together in a diverse and demanding array of settings.

Kin

Design - PearsonLloyd

Kin is a family of elegantly strong mono-shell seating and 'family' was the ethos from the very beginning. Often, a range develops from an original design for a single piece and is then stretched to apply to other furniture, but Kin's purpose was to be one coherent and harmonious collective. So, there are no poor cousins, just strong, compelling characters allowed to thrive alone and together in a diverse and demanding array of settings.

Design - PearsonLloyd

Kin is a family of elegantly strong mono-shell seating and 'family' was the ethos from the very beginning. Often, a range develops from an original design for a single piece and is then stretched to apply to other furniture, but Kin's purpose was to be one coherent and harmonious collective. So, there are no poor cousins, just strong, compelling characters allowed to thrive alone and together in a diverse and demanding array of settings.

Mollie

Design – John Coleman

Our new variants of this popular chair retain the classic silhouette of the original design whilst featuring a deeper, fuller back support and a slightly more generous seat width. A luxurious and satisfying design, Mollie is suited to hotel and restaurant dining, bars or corporate environments.

Mollie

Design – John Coleman

A luxurious and satisfying design, Mollie displays both classic and contemporary elements. The range comprises of a four leg armchair and high stool and a center pedestal armchair and high stool, both of which swivel through 360 degrees.

Mollie is a versatile design that can enhance a vast array of interior styles being ideally suited to hotel and restaurant dining, bars, or corporate environments.

Ooty

Design – SmithMatthias

Ooty is a simple, quiet, yet robust stool that fits into a wide array of environments. The aim with Ooty was to create a stool that was both visually and physically light and to let the material to take center stage. Details like edge chamfers and soft triangular shapes elevate the piece.

Phoulds - Wood Shell

Design – Allermuir

Elegance, poise and comfort were the words that guided the development of Phoulds. Meticulous joining of two pressed plywood shells create the chair's structure which is lined with a distinctive six panel upholstery style. Phoulds offers the diversity of both high and mid back shells and two distinctive support frames. In addition the outer shell has the option of being fully upholstered.

Qdos

Design – Justus Kolberg

Qdos is a new breed of chair born out of the desire to create perfection. It demands attention. Its striking form, dynamic detailing, and simplistic clean lines are nothing but deceiving. Underneath the finest leather and a crisp aluminium frame is pure engineering innovation; its exoskeleton moulds and contours to your body meaning you get the utmost support whilst sat in a chair that demands prestige.

Rapt

Design – Jonathan Prestwich

Rapt exudes poise and offers a fresh alternative to the established norms of executive seating. It has been created to grace environments where key decisions are made, where success happens, where detail and conviction are imperative and where extraneous distractions need to be eliminated.

Rapt's elegant and minimal design also provides exceptional comfort, featuring generous proportions and an anatomically shaped, cushioned seat and back.

Ricco

Design – Studio Ballendat

Ricco is a visually striking yet simple product that brings an innovative design approach to ad hoc work settings, meeting and conference environments.

With the development of Ricco we have understood the mechanical geometry of a synchronous tilting action and developed the chair so that its structural frame replicates the necessary movements. This innovative approach results in a visually and physically light and uncomplicated product that flexes and moves intuitively. The design also allows the tension of the tilting action to naturally balance to each user without the need of manual adjustment.

Scoop

Design – Fraser Lee

Visually minimal, Scoop is simple, compact and clever. The chairs can neatly stack together for easy storage or transportation making it perfect for transient spaces. Its simple tubular steel frame construction and seats with their unique character give Scoop freshness over and above existing mono shell designs on the market.

Aura Modular Lounge Sofa

Design – Patrick Norguet

Aura, a sophisticated sofa system designed by Patrick Norguet, embodies the essence of quiet luxury and refined comfort. Segmented in design, the collection offers a seemingly endless array of configurations, allowing it to effortlessly blend into a variety of environments, from luxurious hospitality settings to modern office spaces and public areas. Featuring two distinct variations, Aura is available as both a laid-back lounge sofa and a dining or work-height sit providing a more upright, functional alternative.
Aura's soft, sculptural lines have been meticulously crafted to be captivating from every angle - whether snaking through the centre of your space or positioned against a wall, it is sure to impress.

Aura Modular Lounge Sofa

Design – Patrick Norguet

Aura, a sophisticated sofa system designed by Patrick Norguet, embodies the essence of quiet luxury and refined comfort. Segmented in design, the collection offers a seemingly endless array of configurations, allowing it to effortlessly blend into a variety of environments, from luxurious hospitality settings to modern office spaces and public areas. Featuring two distinct variations, Aura is available as both a laid-back lounge sofa and a dining or work-height sit providing a more upright, functional alternative.
Aura's soft, sculptural lines have been meticulously crafted to be captivating from every angle - whether snaking through the centre of your space or positioned against a wall, it is sure to impress.

Aura Meet

Design – Patrick Norgeut

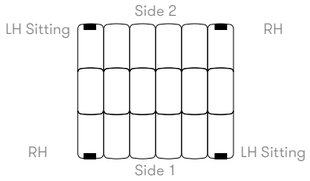

Designed by Patrick Norguet, the Aura Sofa Collection embodies quiet luxury and refined comfort. Its modular design and soft sculptural lines allow it to flow effortlessly, adapting to your space and vision.

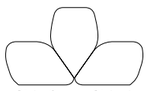

Available in both Lounge and Meeting versions, Aura offers flexibility in experience. The Meeting option provides a more upright seating posture, inspired by the classic banquette style found in Parisian cafés and restaurants where Patrick found his inspiration. Perfect for hospitality settings.

Bastille

Design – Patrick Norguet

Bastille is a seating family made up of a dining, lounge and bar stool with a minimalist, yet luxurious aesthetic. The collection was designed specifically with hospitality environments in mind although with the increased merging of interior styles in corporate and hospitality markets the collection could easily transition across both.

	Fabric Grade	C.O.M. 1	2	C.O.L. 3	4	5	6	7	8	9	10	11	A	B

Clo

Design – Allermuir Design

Clo is an elegant soft-seating collection inspired by high-end hospitality design, perfectly suited for luxurious receptions, spacious lobbies, upscale cafeterias, and meeting rooms—creating an office environment that feels truly worth the commute.

Clo combines the minimalist appeal of a stool with the graceful curves and sophisticated design typically found in hotel lobbies, cocktail lounges, and upscale restaurants

Curve

Design – SmithMatthias

Curve is a modern interpretation of a classic lounge chair, designed by SmithMatthias. Curve's contemporary yet light silhouette elegantly softens its generous proportions, to create a chair that oozes confidence, or as we like to call it, Bold Softness. This oversized, statement lounge chair that is intriguingly timeless, designed to fit in a variety of environments.

Ships Fully Assembled

Configuration plan is required when linking option is selected.

Available in limited upholstery options, please contact the Internal Sales Support Department for more details.

All power units are centered in bench; 1-sided configurations only.

1 infeed required for every 5 power units. For runs longer than 5, please specify additonal infeed.

When power is specified, benches will come with p-clips, screws, and zippered dust covers. For additional power options, or configurations, please contact the internal sales support department.

Ships Fully Assembled

Configuration plan is required when linking option is selected.

Available in limited upholstery options, please contact the Internal Sales Support Department for more details.

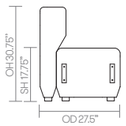

All power units are centered in bench; 1-sided configurations only.

1 infeed required for every 5 power units. For runs longer than 5, please specify additional infeed.

When power is specified, benches will come with p-clips, screws, and zippered dust covers. For additional power options, or configurations, please contact the internal sales support department.

Jinx

Design – Allermuir

Jinx is a contemporary range of organically shaped soft seating that revolutionizes a low sit, which captures the epitome of comfort that is suitable for a wealth of environments. The design of Jinx challenges the structural formation we have become so accustomed to, the geometric form and defining angular lines create architectural freedom within a space.

Lola

Design – Wolfgang CR Mezger

Lola is a seductive, curving and shapely, yet strong and dependable collection.

This soft seating range has been designed as a contemporary, visually lighter alternative to the linear forms typically used in corporate environments. Providing excellent comfort, Lola is perfect for stunning reception areas or for creating relaxing spaces in corporate lounges or breakout areas.

Mote

Design – Allermuir

Mote has been designed to provide a holistic solution when designing dynamic environments. Created as a complete lounge seating range, no detail is an afterthought, with every inch having been given careful consideration to eliminate dead space.

The Mote family includes sofas, ottomans, screens and accessories, each linking seamlessly to each other to create a combination of rectilinear and curvilinear forms for beautiful yet defined spaces.

Mozaik

Design – Mark Gabbertas

The Mozaik seating family is made up of three principal shapes. A small soft square stool and soft rectangular bench available in two heights and a large low soft square stool. The two heights of upholstered unit allow for different seating styles that in turn facilitate different patterns of behavior, function and interaction. But their dual heights also suggest the function of the higher unit as a space division, a surface for a device, a support for the user's back or arm or a place to perch.

Obris

Design – Jonas Wagell

With inviting proportions, Obris is the perfect balance of comfort and form. Its clean lines, slim arm detailing and deep seat allows it to blend subtly wherever you rest, office or lounge.

An innovative upholstery technique on the outer body using a CNC shaped steel frame and tensioned fabric adds comfort, weight reduction and light visuals.

Open 2.0

Design – PearsonLloyd

Open 2.0 is an elegant and relatively compact contemporary range of soft seating, comprising of a lounge chair with or without a headrest, footstool and a large two seat sofa. The moulded seat shells and cushions with bull nosed edge profile and tailored upholstery, provides great comfort, precise shape and visual slenderness.

Orai

Design – Mark Gabbertas

Orai uses a restrained, minimal aesthetic to create its architectural profile. Simple, elegant and timeless, the design works in a variety of interior spaces. The considered tailoring and gentle profiling of the upholstery allow the sofa to maintain its comfort and form even in high use areas.

The design by Mark Gabbertas achieves a deliberate balance between the classic and contemporary and is available as single-seat armchair, 2-seater and 3-seater sofa. Orai is the cousin to the Oran range of upholstery and uses the same aluminum frame and cast aluminum legs to carry the slightly more compact, but equally welcoming upholstery volumes.

Oran

Design – Mark Gabbertas

Characterized by the combination of a soft appearance and feel, with a precise and defined upholstery detail, Oran is a modular sofa system designed to work in both workplace and hospitality environments. The rounded and voluminous interior of the sofa is restrained by a defined seam, that leads the eye with ease around the sofa profile. Carried by a minimal powder coated Aluminum frame and cast Aluminum corner leg, the system allows the creation of an infinite number of configurations from a limited number of individual seat units.

Plum

Design – Mark Gabbertas

Plum is a universal lounge chair with an exceptionally comfortable upright sit. The characterful collection is based on a series of ultra-soft pillow like structures that allow the internal structure of the chair to be hidden. Plum is as much at home in a hotel bedroom as it is in an office lobby or informal meeting area.

Plum Sofa

Design – Mark Gabbertas

The characterful lounge chair collection has evolved to include one, two and three-seat units offering various levels of openness and enclosure, from an ottoman to a standard height sofa through to a high back sofa. The entire family is based on series of ultra-soft pillow like structures that allow the internal structure of the chair to be hidden.

The elegant and compact nature of Plum means it is as much at home in a hospitality setting as a corporate one.

DESIGN

Allermuir Design Team

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimize the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

Axis Tables - Meeting Height Rectangular Tables

Specifiy (Quantity 1) complete ATPB-X-X unit per cutout.

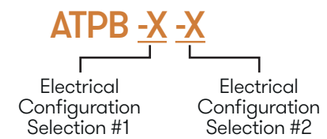

Please refer to Power B location page for cutout details.

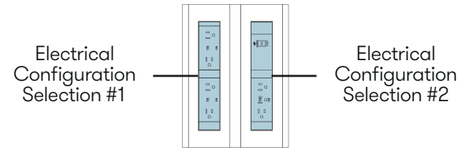

Back to index

Power Option "B" includes (1) rotating in-surface lid and (1) power undercarriage which accepts (2) electrical configurations: below units will come with electrical jumpers + splitters for streamlined connectivity. Please add the prices of electrical configuration selections #1 and #2 together to arrive at the total Power Option B cost.

To specify your "B" electrical, please select (2) electrical configurations below and build into the part number per the following example:

Note: Always list lowest number first

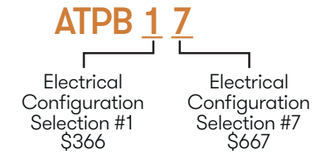

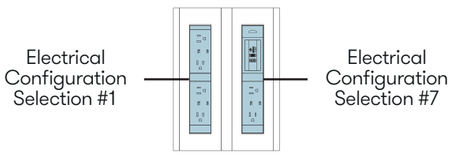

Code	Description	Price	Fits Power Cut Out:	Notes

Axyl - Bistro Dining Tables

Design – Layer

Axyl tables follow the same design typology and constructional values as the rest of the Axyl collection, featuring a shared distinct frame. A table for every occasion, Axyl café & bistro tables are perfect for smaller gatherings while the dining tables suit larger groups and more formal settings.

Axyl tables are exceptionally robust for continued use in high impact dining areas. The use of a solid Steel stem on the café range, greatly enhances the stability of the table while minimizing the need for a large frame base.

Crate

Design – Allermuir Design Team

From its slender frame to soft color palette offering, Crate fits into many environments. With the popularity of indoor foliage, Crate was designed to contain and elevate potted plants but is equally adept at storing everyday items. Each planter comes complete with a natural finish solid ash dished top tray and a perforated steel low level shelf which is ideally suited for storing books or magazines.

Host – Occasional Table

Design – Simon Pengelly

Host is a standalone table for use as a laptop support or work surface and is proportioned accordingly, with a weighted stable base and elegant column. A convenient hand grip to the underside of the edge together with side slides under the base plate allows the user to easily glide the table closer.

Mote Storage - Side Board

Design – Allermuir

Mote has been designed to provide a holistic solution when designing dynamic environments. Created as a complete lounge seating range, no detail is an afterthought, with every inch having been given careful consideration to eliminate dead space.

The Mote family includes sofas, ottomans, screens and accessories, each linking seamlessly to each other to create a combination of rectilinear and curvilinear forms for beautiful yet defined spaces.

Mote Storage - High Board

Design – Allermuir

Mote has been designed to provide a holistic solution when designing dynamic environments. Created as a complete lounge seating range, no detail is an afterthought, with every inch having been given careful consideration to eliminate dead space.

The Mote family includes sofas, ottomans, screens and accessories, each linking seamlessly to each other to create a combination of rectilinear and curvilinear forms for beautiful yet defined spaces.

Mozaik Storage

Design – Mark Gabbertas

Mozaik Storage consists of a high level soft square unit and a low level soft rectangular unit. All units begin with the same minimalist steel frame with a fixed shelf both top and bottom. The central shelves of the high units can be removed to house tall items such as plants or vases. The low level unit makes an ideal occasional table for refreshments, books and magazines.

Oran

Design – Mark Gabbertas

Designed to complement the soft appearance of the modular sofa system, the Oran table collection works well in both workplace and hospitality environments. The range includes a variety of top sizes to choose from, all carried by a minimal powder coated Aluminum frame and cast Aluminum corner leg. When used in combination with the seating units, the system allows for the creation of an infinite number of configurations.

PAILO

With every Allermuir design comes a great deal of thought. The design process starts way before pencil reaches paper, beginning with looking at you. We look at how you sit, reach, move and work to create a design which not only looks beautiful, but is a pleasure to use too.

Behind every Allermuir product is a fusion of intelligent thinking and innovative engineering to create products which support people whether they're focusing, collaborating, presenting or organizing.

PAILO

STANDARD FEATURES (*Selected models only)
- Solid Ash sculpted legs
- Tooled Aluminum components
- Hidden frame attachments
- Leveling feet
- Scalloped cable access
- 1" TFL table tops TE), or 1" Laminate on ply tops (Edge 33)

SPECIFIABLE FEATURES
- In-line or back to back frames

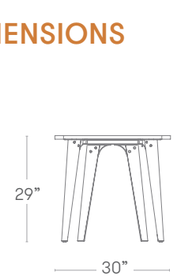

COMPLEMENTARY OPTIONS
- Desk gantry for hanging screens
- Adjustable drape screens
- Hanging screens
- Bench desk cloud screens
- Single desk cloud screens (integrated modesty panel)
- In-desk power modules for project tables
- Cable trays in accent colors
- Wire under-desk storage caddy

ACCESSORIES
- Monitor arms
- Electrical accessories

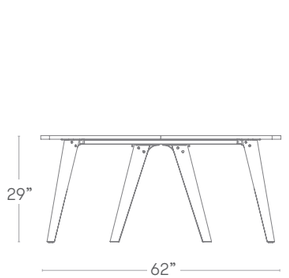

PERFORMANCE STANDARDS

Designed to conform to and where applicable is tested to the following standards:
- BIFMA X5.5 x2014

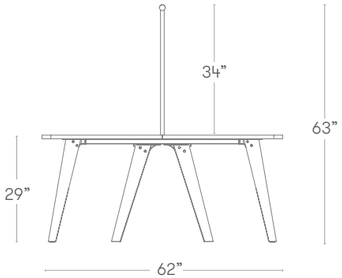

DIMENSIONS

Single desk

Back to back bench

Back to back bench with gantry

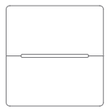

Single executive desk
Widths. 48" - 78"
Depth. 30"

Stand alone desk
Widths. 48" - 78"
Depth. 30"

2 Person in-line desk

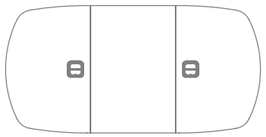

2 Person cluster
Widths. 48" - 78"
Depth. 62"

Project table
Widths. 96" - 192"
Depth. 62"

Boat shaped project table
Widths. 96" - 192"
Depth. 72"

PAILO SINGLE DESK

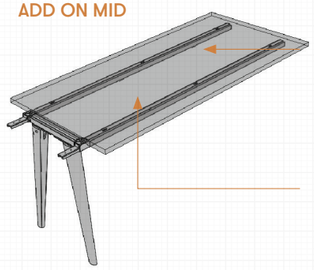

STARTER DESK

In-line desks are created by connecting an add on desk to a starter desk. You are able to link as many add on desks as necessary to complete your configuration.

Starter Desk
A Starter Desk is comprised of (2) end legs, (2) beams, (1) starter worksurface and all corresponding hardware.

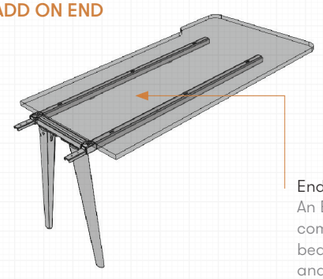

ADD ON MID

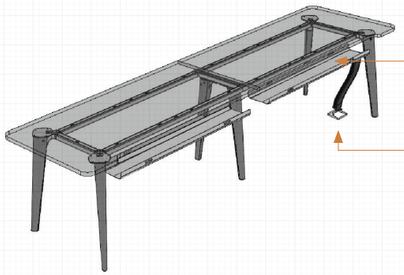

Beams
Beams connect the legs together and support the tops. The beams feature an extruded profile which can be used to attach accessories.

Mid Add On
A Mid Add On desk is comprised of (1) mid leg, (2) beams, (1) mid worksurface and all corresponding hardware.

ADD ON END

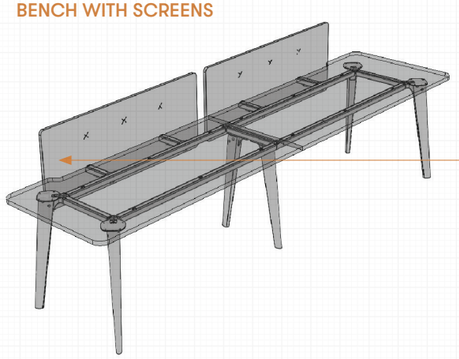

End Add On
An End Add On desk is comprised of (1) mid leg, (2) beams, (1) end worksurface and all corresponding hardware.

Cable Tray
Cable trays are available to manage power options. (1) Single cable tray is needed per starter desk and every additional add on.

Vertical Riser
The vertical riser is used to transport power cables from the ground to the cable tray. It is attached to the underside of the cable tray and can be positioned at either end of the cable tray.

BENCH WITH SCREENS

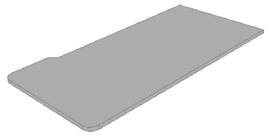

Screen / Modesty Panel
Screens are also available to separate benches to allow for more private working. The screens for single desks extend below the desk surface to act as an integral modesty panel.

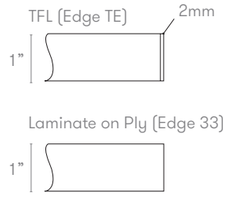

Back to Index

PRODUCT DETAIL

WORKSURFACES

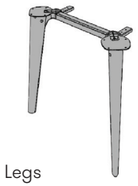

On inline desks, one top is supplied per starter desk.

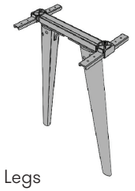

Pailo tops are available in 30” depth and lengths of 48”, 54”, 60”, 72” and 78”. Surfaces can be specified in TFL (Edge TE) or Laminate faced plywood (Edge 33).

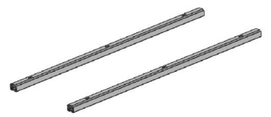

FRAMEWORK

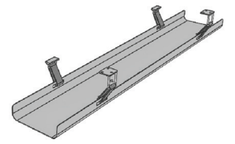

End Legs
Single end legs are for 30” deep tops. Each end leg has spigots protruding from the frame to allow the beam to be attached into place. Adjustable feet are standard.

Mid Legs
Mid legs are used to connect starter desks and add-on desks. They have double sided spigots to attach beams to both sides and come with adjustable feet as standard.

Beams
Extruded Aluminum beams are used to connect the legs together. They bolt at each end to the spigots and also through to the top with a channel to hide the attachments. Beams come in widths of 48”, 54”, 60”, 72” and 78”.

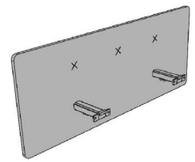

Cable Trays
Cable trays hang from the beams using leather straps. These allow for power blocks to be housed along with any wires or loose cables.

SCREENS AND ACCESSORIES

Vertical Riser
An optional fabric vertical cable riser with zip opening is available to allow power cables to be taken neatly from the floor to the cable tray or directly to the worksurface. The riser attaches to the cable tray and has a weighted wire base. Available in black fabric.

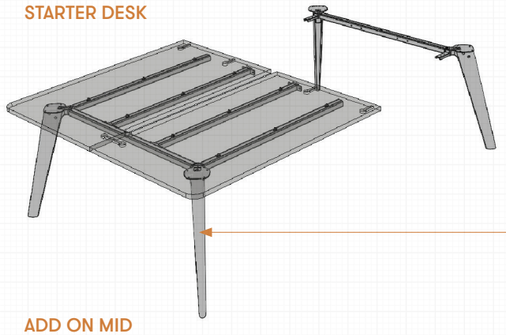

Cloud Screen with Modesty Panel
The cloud screen mounts directly to the desks understructure. The screens for single desks extend below the desk surface to act as an integral modesty panel. Cloud screens measure 40.5” from the floor to the top of the screen.

Above Desk Power
An optional above desk power module can be added for convenient power access. 2 power outlets, and 2 charging USB ports are included. Above desk power is available with a 10 foot 3 prong plug, or 10 foot hardwire infeed.

PAILO BACK TO BACK BENCH

STARTER DESK

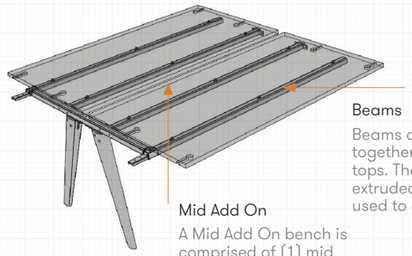

Benches are created by connecting an add on desk to a starter desk. You are able to link as many add on desks as necessary to complete your configuration.

Starter Bench

A Starter bench is comprised of (2) end legs, (4) beams, (2) starter worksurfaces and all corresponding hardware.

ADD ON MID

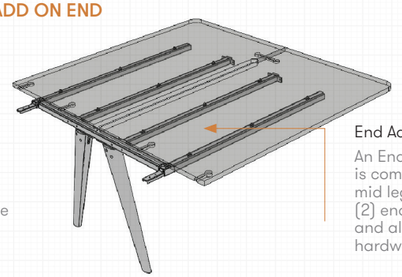

Beams

Beams connect the legs together and support the tops. The beams feature an extruded profile which can be used to attach accessories.

Mid Add On

A Mid Add On bench is comprised of (1) mid leg, (4) beams, (2) mid work surfaces and all corresponding hardware.

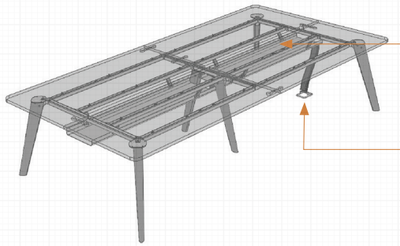

ADD ON END

End Add On

An End Add On bench is comprised of (1) mid leg, (4) beams, (2) end worksurfaces and all corresponding hardware.

BENCH WITH CABLE MANAGEMENT

Cable Tray

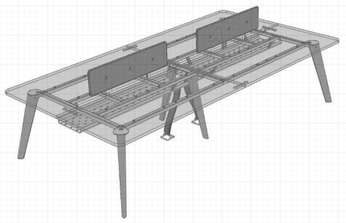

Cable trays are available to manage power options. (1) Single cable tray is needed per starter desk and every additional add on.

Vertical Riser

The vertical riser is used to transport power cables from the ground to the double cable tray. It is attached to the underside of the cable tray and can be positioned at either end of the cable tray.

CLOUD SCREENS

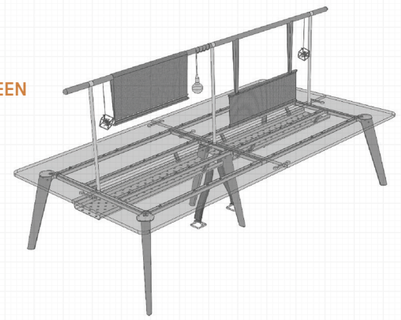

Screens are also available to separate benches to allow for more private working.

ADJUSTABLE / HANGING SCREEN

Gantry

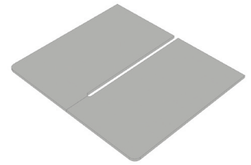

The gantry can be used to hang screens, lighting and personal accessories.

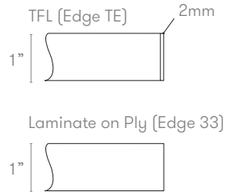

PRODUCT DETAIL

WORK SURFACES

On back to back benches two tops are supplied. Back to back configurations will result in 62" overall depths due to central gap for cable access.

Pailo tops are available in 62" depth and lengths of 48", 54", 60", 72" and 78". Surfaces can be specified in TFL (Edge TE) or Laminate faced plywood (Edge 33).

FRAMEWORK

End Legs

Bench end legs are 62" wide. Each end leg has spigots protruding from the frame to allow the beam to be attached into place. Adjustable feet are fitted as standard.

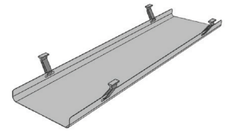

Mid Legs

Mid legs are used to connect starter desks and add-on desks. They have double sided spigots to attach beams to both sides and come with adjustable feet as standard.

Beams

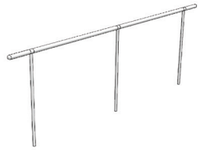

Extruded aluminum beams are used to connect the legs together. They bolt at each end of the spigots and also through the top with a channel to hide the fixings Beams are available to suit the table widths of 48", 54", 60", 72" and 78".

Cable Trays

Cable trays hang from the beams from leather straps. These allow for power blocks to be housed along with any wires or loose cables.

SCREENS AND ACCESSORIES

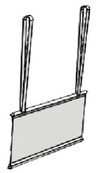

Gantry

The gantry mounts directly to the desks understructure and can be used to hang accessories such as screens and lighting. Constructed of metal uprights and a wooden top rail.

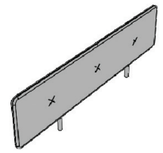

Adjustable drape screen

The adjustable drape screen is for use with the gantry. The fabric screen is suspended and can be raised or lowered by the user depending on the amount of privacy desired.

Hanging screen

The hanging screen is for use with the gantry. The fabric screen is suspended via 2 bridle leather straps.

Cloud screen

The cloud screen mounts directly to the desk frame. Screens feature an 'X' detail in the screen upholstery. Cloud screens measure 41" from the floor to the top of the screen.

Wire caddy

The wire caddy is suspended from the desk beams and includes 2 adjustable shelves to allow personal belongings to be kept off the floor and close to hand. When the shelves are removed, the wire caddy can be used as a CPU holder. Available in 6 accessory colors.

Vertical Riser

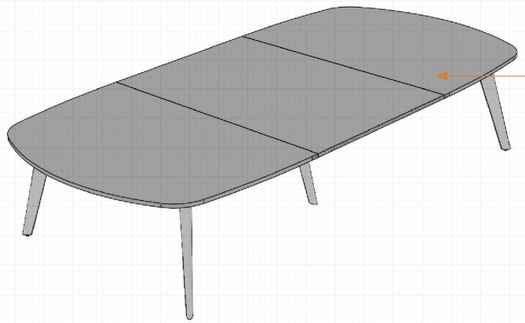

An optional fabric vertical cable riser with zip opening is available to allow power cables to be taken neatly from the floor to the cable tray or directly to the worksurface. The riser attaches to the cable tray and has a weighted wire base. Available in black fabric.

Above Desk Power

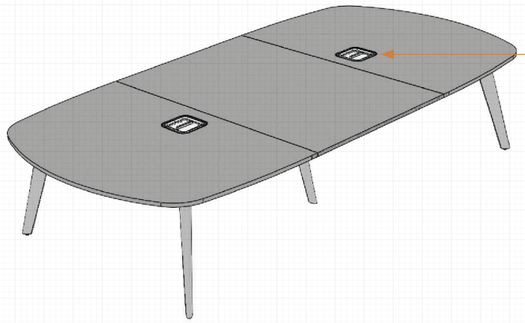

An optional above desk power module can be added for convenient power access. 2 power outlets, and 2 charging USB ports are included. Above desk power is available with a 10 foot 3 prong plug, or 10 foot hardwire infeed.

PAILO PROJECT TABLES

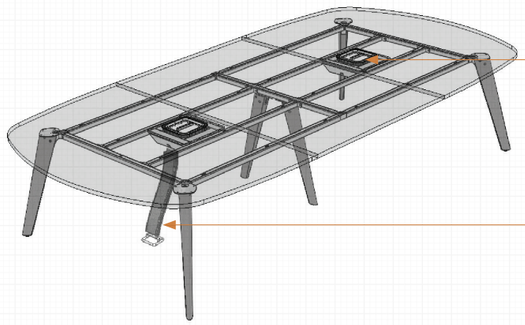

Project Tops

Project table tops are made with uniformly sized top panels so there is no central joint between the tops.

Power Option

Simple power access via drop in cover.

Power Option

Choice of 2 pre-configured power options.

Wire Management

Vertical cable manager takes power neatly up to the desk.

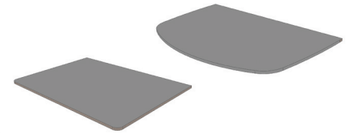

Back to Index

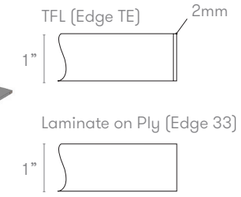

PRODUCT DETAIL

WORKSURFACES

Project table tops are made with uniformly sized top panels so there is no central joint between the tops.

The grain direction runs with the depth of the surface.

Project tables are available in 62” or 72” depth and lengths of 96”, 144”, and 192”. Surfaces can be specified in TFL (Edge TE) or Laminate faced plywood (Edge 33).

FRAMEWORK

End Legs

Project table end legs are 62” wide. Each end leg has spigots protruding from the frame to allow the beam to be attached into place. Adjustable feet are fitted as standard.

Mid Legs

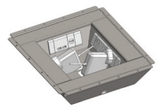

Mid legs are used to connect starter desks and add-on desks. They have double sided spigots to attach beams to both sides and come with adjustable feet as standard.

Beams

Extruded Aluminum beams are used to connect the legs together. They bolt at each end to the spigots and also through to the top with a channel to hide the attachments. Beams are available to suit the table widths of 96”, 144” and 192”.

POWER AND ACCESSORIES

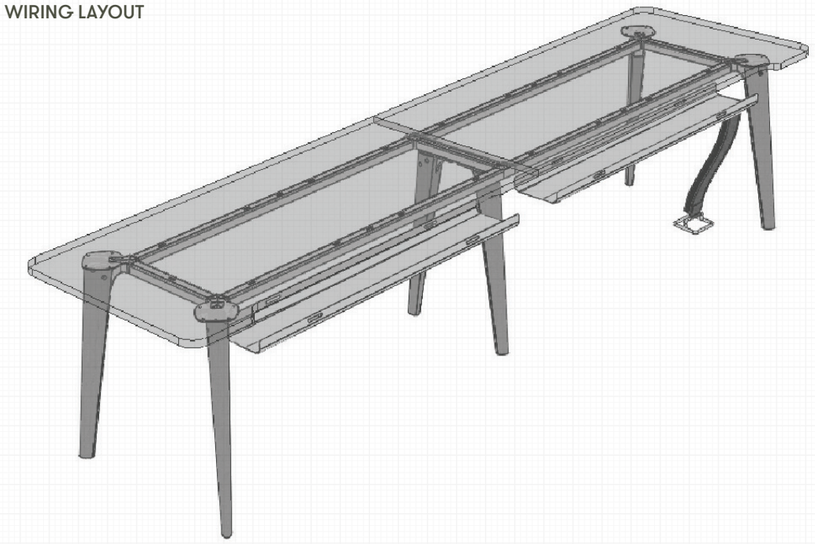

Code A & B

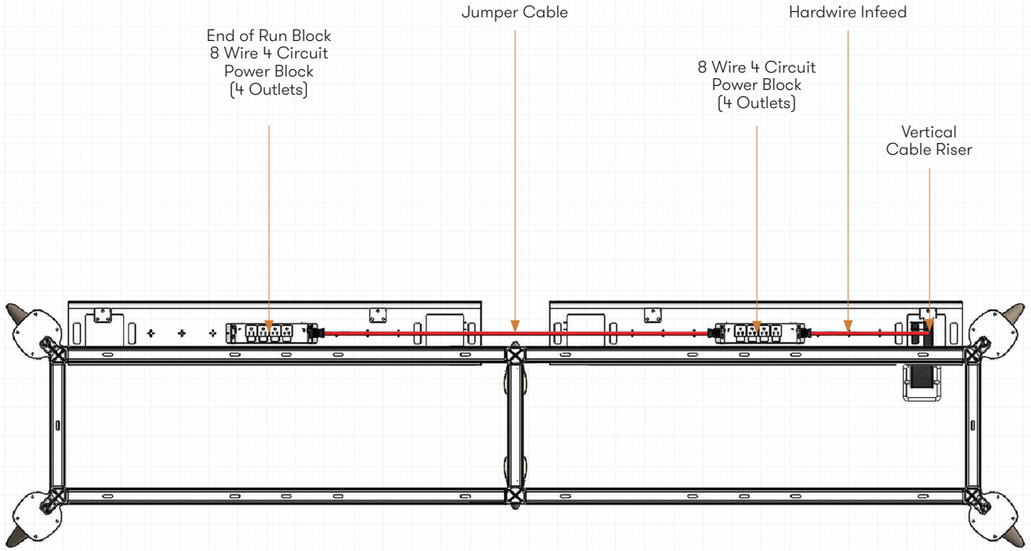

In table power options are available on Pailo project tables. Power option A (4 Power) and Power option B (4 Power, 2 USB A+C Charging, and HDMI) are available.

Pailo - Table Power Options

Design – Allermuir

Pailo is a desking system featuring single and back to back benches as well as two shapes of project tables for more relaxed work settings. A natural selection for any corporate space, Pailo's defining wood legs are available in a matte clear lacquer or a black stain to complement the wide range of top finishes available.

The inclusion of a gantry provides a hanging space for Pailo's versatile range of screens and accessories. Hanging screens can be suspended from the gantry by bridle leather straps, leaving the above space free to be used for accessories and plants. An adjustable drape screens offer personalized levels of privacy, attached to the gantry they can be raised or lowered by the user to suit individual preference.

Sula Credenza

Design – Allermuir

The Sula Credenza is designed to complement not only the Sula Table collection but every table within the Allermuir range.

Its distinctive oversailing sides and doors create a dynamic, layered aesthetic, where its three varying visual heights come together to form a harmonious landscape. This contemporary design allows the Sula Credenza to transition effortlessly between formal and informal settings in both workplace and hospitality environments.

Tibo Indoor

Design – Mark Gabbertas

Tibo is a combined bench and table system in 3 sizes for indoor and outdoor use. The objective was to find a way to provide the easiest and most natural interaction between people and in doing so demonstrate that intelligent design can beneficially influence behavior.

Tibo is engineered around an aluminium frame designed to maximise strength and rigidity but minimise the number of elements at ground level for visual clarity, ease of installation and leveling. The base structure utilizes die cast and extruded aluminium components in a number of powder coated finishes. The tops and bench seats are available in laminated Ply or MDF for indoor use.

Turo Tables

Design – Allermuir

The bezels of vintage dive watches inspired Turo's slim fluted leg profile, that in turn have been crafted with the same precision. The icosagon* shaping of the leg adds a subtle focal point without disrupting the simplicity of its silhouette. Available as square, rectangular and round tables in varying sizes, the desire was to create a simple yet stylish table for everyday use in every type of environment.

X&Y

Design – Allermuir

XY tables are a smart, functional, height adjustable pull up table system. The personal laptop and side tables feature an easy push lift system for height adjustment between lounge and work height.

The X & Y shaped bases provide fantastic stability while not being obtrusive; allowing the tables to be pulled up to where they are needed. For enhanced flexibility, the personal tables are available with casters.

Furow

Design – Allermuir

A new series of planters by Allermuir Design, Furow takes its inspiration from pleat formations and linear forms found in nature.

Furow makes adding plants to workplace and hospitality interiors easy. Use the circular planter to create a focal point in otherwise awkward spaces and soften strong linear architecture. The mobile rectangular planter effortlessly divides zones and provides a mood-boosting lush backdrop

Available in two materials, oak tambour or powder coated pressed steel.

Haven Pods - Mid Height

Design – Allermuir

Advances in technology, changing work patterns and the trend towards open plan workspaces have resulted in an evolution of the modern workplace. Pods create both focused environments within open plan offices and provide ideal spaces for ad hoc meetings and sharing ideas.

The products across the range offer different acoustic and privacy benefits. Their innovative geometric shape maximizes space efficiency while reducing surrounding noise.

Haven Pods - Quad Abode

Design – Allermuir

Within open plan office environments it is more common today for employees to share resources such as printers and scanners. Aside from the general ambient noise of an office it is generally accepted that it is these kind of devices whirring into life that provide much of the acoustic and visual distraction of colleagues utilizing them.

Fabric color matching:
Allermuir does not guarantee and will not assume responsibility for the fastness of colors or wearing qualities of any material.

Due to dye lot variations, colors may not match exactly. Any adjustments made will depend upon the fabric manufacturer's willingness to stand behind their product.

Fabric puddling:
The content of certain fabrics makes these fabrics susceptible to puddling and wrinkling over which Allermuir has no control. Changes in weather, humidity and continued use can affects these fabrics.

Directional fabrics:
Fabrics such as stripes, plaids and large scale patterns may not meet expectations due to certain sewing patterns, contoured shapes and seams. When required we will upholster to customer specification but such orders are not subject to return. If you have a question or concern about fabric application to any of our products please contact your Internal Sales Support team member and submit a fabric sample for approval prior to placing an order.

Two-tone upholstery
Some products are available in two-tone contrasting upholstery. For pricing purposes price using the highest fabric group selected and add the two-tone option upcharge per unit. For Soft Seating we require a two-tone specification sheet to be submitted for each product to ensure we have interpreted your requirements correctly.

COM/COL Ordering Instructions:
ALL COM and COL fabrics must be submitted to Allermuir for preliminary approval prior to shipment of fabric or leather.

Allermuir's approval signifies only that such materials can be applied to the products for which they are intended. This approval does not constitute any responsibility nor any warranty on the part of Allermuir as to the appearance, behavior or durability of the COM and/or COL. Allermuir reserves the right to reject any fabrics that, in Allermuir's opinion, are unsuitable for application.

Send standard industry memo sample to:
Allermuir,
Attn: Internal Sales Support,
4111 N. Jerome Road
Maumee Ohio 43537

Please tag memo sample for which product it is to be tested, also include your contact information.

Include application instructions for striped, plaid, patterned, or large scale repeats. In the absence of specific written instructions, fabrics will be cut, seamed and applied at our discretion and at the customer's own risk.

COM/COL orders will only be scheduled for production only upon receipt of production yardage.

Excess COM/COL materials will be discarded at the discretion of Allermuir unless otherwise instructed by the customer at the time of purchase.

54" Fabric with a Print or Stripe Repeats:
Repeat: Increase COM Requirements:
1" – 7" 11%
8" – 13" 18%
14" – 21" 21%
22" – 27" 25%
27" – above
Contact Internal Sales Support team member with questions

COM/COL Shipping and Receiving Instructions:
All approved COM/COL materials must ship to the following location and be tagged with dealer name and purchase order on all packing lists. Ship all materials to
Allermuir,
4111 N. Jerome Road
Maumee Ohio 43537

Additional fabric finish options:
Allermuir will add additional finishes to fabrics, included but not limited to Alta, NanoTex, DuraBloc or InCase. In these cases please increase your fabric grade by 1 grade to cover the cost. For example, if you have selected a Grade 2 fabric and would like to add InCase, please use Grade 3 pricing. Also, please make sure your PO clearly states that you would like to add the InCase treatment. This additional treatment will add approximately
2 – 3 weeks to Allermuir's standard lead time.

Zipper Colors:
Allermuir will make every effort to match zippers to the fabric the best we can, whether it's graded in or COM/COL fabrics.

Fabric Partners

ArcCom

Allermuir has partnered with ArcCom. ArcCom is available through Allermuir on upholstered products.

Specify Allermuir's product in the corresponding grade of the desired fabric, and Allermuir will handle ordering the fabric from ArcCom. Non-Stock Table Top Information Ordering Instructions:

In addition to Allermuir's standard graded-in table top finishes, non-stock laminates and solid surfaces are available.

Please contact US Customer Service to confirm availability and to request pricing.
Phone (419)887.5806
Toll free (888)887.5806

The full product specification is needed at the time of your call including the manufacturer's name, pattern name, product number and finish.

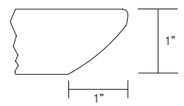

We may require a sample to be mailed to our corporate headquarters to ensure the material meets our quality standards. Allermuir reserves the right to reject any non-stock top material that, in Allermuir's opinion, is unsuitable for application.

Samples can be sent to:
Allermuir
Attn: Internal Sales Support
4111 N. Jerome Road
Maumee, Ohio 43537

Tables & Storage – Edge Details

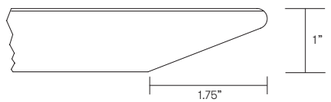

Edge Detail # 11
1" MDF core, specified laminate face and counterbalance with convexed edge, as standard. The edge is clear finished as standard or can be stained.

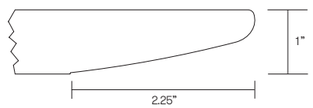

Edge Detail # 28
HPL laminate over a 1" MDF core counter balanced. The edge is cut back with a chamfer. The edge is clear finish as standard or can be stained.

Edge Detail # 33
0.75" ply core, specified laminate or linoleum face and counterbalanced with a flat edge, and clear finish or 1" ply core, specified laminate or linoleum face and counterbalanced with a flat edge, clear finish.

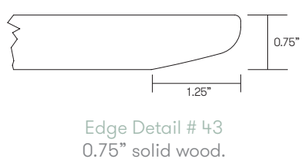

Edge Detail # 37
HPL laminate over a 1" MDF core counter balanced. The edge is cut back with a chamfer. The edge is clear finish as standard or can be stained.

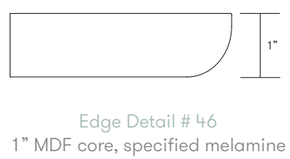

Edge Detail # 38
HPL laminate over a 1" MDF core counter balanced. The edge is cut back with a chamfer. The edge is clear finish as standard or can be stained.

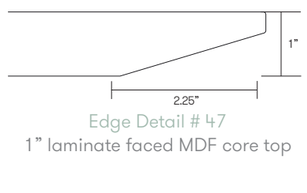

Edge Detail # 41
0.5" solid surface - Design range.

Edge Detail # 43
0.75" solid wood.

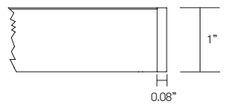

Edge Detail # 46
1" MDF core, specified melamine face and counterbalance. The edge is clear finish as standard.

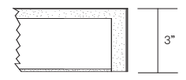

Edge Detail # 47
1" laminate faced MDF core top

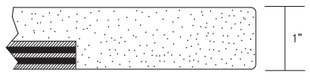

Edge Detail # 56
Profile available in:
0.4" - toughened glass sand blasted Ritek coated on underside Polished edges. Solid core laminate with Polished edge.

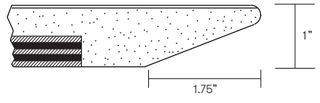

Ref Group TE
HPL laminate over a 1" MDF core with matching or solid PVC edge.

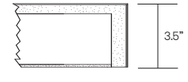

Edge Detail # 76
HPL laminate face and 3" built down edge.

Edge Detail # 80
Solid surface 1" thick backed with hardwood plywood.

Edge Detail # 82
Solid surface 1" thick backed with hardwood plywood.

Edge Detail # 90
HPL laminate face and 3.5" built down edge.

Care and Maintenance

Periodic maintenance is necessary to ensure long term durability and customer satisfaction. All products should be closely inspected each month. If any item shows signs of structural failure it should be taken out of service immediately.

Fabric
Please follow specific manufacturing guidelines when cleaning fabric. Cleaning with an unapproved solution could damage the fabric.

Neglect is the most common cause of the premature breakdown of any upholstery fabrics. Problems occur as a result of inadequate removal of dirt, dust and grit which settles on the surface of the upholstery. If not removed, the dirt and grit will eventually penetrate the structure of the fabric. With further agitation, as a user sits on the upholstery, the dirt and grit will act like sandpaper wearing away and breaking fibers in the fabric structure. If enough fibers are broken, a hole will eventually form in the upholstery.

In the same way, pilling can occur. Pilling involves loose fibers migrating to the surface of the fabric, which with further agitation as a user sits on the chair, will curl up to form tiny bobbles of fiber. Although pilling can occur with well-maintained fabrics, it is well known that soiling agents can initiate and/or significantly accelerate pilling.

Leather
Please refer to manufacturer guidelines for conditioning and cleaning. Regular maintenance may be necessary every 3 months to keep the leather surfaces from peeling or cracking.

Plastic/felt feet
Need to be inspected and replaced if worn

Epoxy powder frames
Clean using a damp cloth with a mild solution of soap and water.

Chrome frames
Clean chrome with a good grade chrome cleaner to maintain a bright finish. Occasionally chrome leakage can occur on products that have been just delivered. Wipe down with a chrome cleaner to eliminate this.

Table tops
Clean with a soft damp cloth and mild detergent solution. Do not use abrasive cleaners.

Wood seating & tables
Wood is a natural product and owes its inherent beauty to the variations in color, texture, and grain which are not considered defects. SIC cannot guarantee the exact matching of colors between batches of wooden products, as wood naturally ages through time.

TFL & Laminates
TFL & Laminate tops are very resistant to normal office problems, such as tea or coffee stains. Simply wiping with a soft damp cloth will remove most stains. Should a stubborn problem arise, clean with a soft damp cloth and a mild detergent solution. Do not use abrasive cleaners. Cut back edges should be wiped with a dry cloth only.

Product Testing

Products have been extensively tested to exceed industry testing standards established by BIFMA. Products have been tested to meet or exceed the following standards as applicable:

ANSI/BIFMA x 5.4 – 2012 Lounge and Public Seating

ANSI/BIFMA x 5.4 – 2005 Lounge and Public Seating

ANSI/BIFMA x 5.1 – 2011 General Purpose Office Chairs

ANSI/BIMFA x 5.1 – 2017 General Purpose Office Chairs

Flammability
All products meet California Technical Bulletin #117.

California Technical Bulletin 117
California Technical Bulletin 117, a mandatory standard, is both an open flame test and a smoldering cigarette test for the component materials, specifically foam and fill materials, as well as upholstery.

California Technical Bulletin 133
California Technical Bulletin 133 is a very severe open flame test, mandatory for furniture sold in what is called “public occupancies” in the state of California.
It should be noted that several other states have adopted California Technical Bulletin 133 for the same occupancies in their states.

All purchase orders requesting CAL TB133 must clearly state whether the need is for TB133 compliance
or certification.

CAL133 TB133 Certificate
Involves a full scale test and an additional 4 weeks is required on our standard lead time. The cost of this test is $650 net. In addition you must purchase the unit in which you would like certified with the appropriate grade fabric. You will receive a full report documenting whether the unit has passed or failed certification. If passed you will also receive a compliance certificate.

Many SIC products comply with California TB133. Please contact customer service for a complete list of products.

The upcharge for this is as follows:
Chair/Bar Stool
- Seat $60 list
- Seat & back $100 list

Cushion
- Loose cushion $50 list

Lounge Seats
- Ottoman $150 list
- Single seat $150 list
- Double seat $250 list
- Triple seat $350 list

SCS Certification:
Please contact your Internal Sales Support Specialist for the most current certificate.

INDOOR ADVANTAGE FURNITURE

INDOOR ADVANTAGE GOLD FURNITURE

Electrical:
Where applicable electrical units used within the SIC product have been UL approved and/or CSA approved.

Limited Warranty

SIC warrants to the original purchaser that its products are free from defects in materials and workmanship for a period of ten (10) years from date of delivery, except as noted below. This warranty applies to single shift (standard 8-hour day, 5 days per week) use, and covers products delivered in the contiguous United States and Canada.

This warranty covers repairs or replacement of product at our discretion and payment of approved labor charges as necessary to affect such repairs or replacement.

Exceptions

5 Years
Stacking chairs, metal chair frames, seating components including controls and adjustment mechanisms, height adjustment mechanisms and pneumatic cylinders, monitor supports and tablet arm assemblies, drawer runners, door closure mechanisms, height adjusters, locking devices, folding table mechanisms, wood veneer and low-pressure laminate (LPL) surfaces, urethane and wood edge treatments, upholstery and tailoring.

2 Years
Electrical components and power supplies, steel pedestals, ballasts, casters, glides, exposed wood frames, marker board surfaces, granite and glass surfaces, replacement parts.

Non-standard product – 2 years

Outdoor (Structural) – 2 years

Fabric

SIC offers no warranty, either implied or expressed, on any fabrics or leathers used on our products. Fabrics and leathers carry warranties from the fabric manufacturer or reseller. Please refer to each reseller's warranties before specifying. Because every fabric specification is different and application for use must be taken into consideration, SIC shall not be held responsible in any manner for wrong specification of fabric for tailoring, wear, durability, or light fastness.

Exclusions

Warranty does not apply to product failure or loss resulting from:

• Normal wear and tear.

• Failure to apply, install or maintain products according to published SIC or manufacturer instructions and guidelines.

• Abuse, misuse, neglect or accident.

• Unauthorized alteration or modification of the product.

• Products exposed to extreme environmental conditions or improper storage.

• Substitution of any unauthorized components that are integral to the performance of the product.

• Any surface defects that are at an unnatural vantage point, (i.e. undersides of seats, inner sides of legs, underneath covers or seat-pans)

• Other manufacturer's product supplied by Senator (their own warranty shall apply where possible).

• Senator shall be under no liability whatsoever for any consequential damage, loss or other expenses whether arising out of contract, negligence or otherwise.

Warranty does not cover:

• Replacement parts are covered for 3 years not to exceed the balance of the original warranty.

• Customer's own materials including, but not limited to solid surfaces, laminates, textiles and upholstery materials, leathers, wood and wood veneers. These materials are subject to the original manufacturer's warranties only.

• Variations in surface materials including color, grain, texture.

• Variations in leather such as scars, wrinkles, skin grain, natural occurring creases, and other marks.

• Variations in wood such as color, staining, grain, scars and other marks.

• Color fastness due to aging or exposure to light.

• Changes in surface appearance resulting from the use of unsuitable, abrasive maintenance or cleaning products/damage from sharp objects/imprinting from writing implements.

• Consumables, such as batteries, light bulbs and lamps.

• Products purchased "as is", used or secondhand.

• Products sold by unauthorized dealers or installer

• Failure to comply with the precautions, advice and instructions regarding the use, assembly, cleaning, care, maintenance, storage or protection of the products.

Warranty Provides Exclusive Remedies

Under this warranty, if a product fails during normal use during the warranty period as a result of a defect in materials or workmanship, SIC will, at its sole discretion, either repair or replace the product free of charge. If SIC determines the repair or replacement of the product(s) is not commercially practical, SIC may choose to refund the purchase price of the affected product.

This warranty applies to products purchased on or after March 1, 2016. For products purchased prior to March 1, 2016, please refer to the warranty terms and conditions in effect at that time.

THIS LIMITED WARRANTY IS THE SOLE REMEDY FOR PRODUCT DEFECT AND NO OTHER EXPRESS OR IMPLIED WARRANTY IS PROVIDED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ALLERMUIR SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, SPECIAL, PUNITIVE OR INCIDENTAL DAMAGES.

This warranty is non-transferable and valid to the original purchaser only. Warranty is enforceable only if products were acquired and installed by SIC or one of its Authorized Resellers.

Terms and Conditions of Sale

SENATOR INTERNATIONAL, INC., an Ohio corporation d/b/a ALLERMUIR ("SIC") does business with its Buyers under the terms and conditions set forth herein. SIC hereby rejects any terms and conditions contained in any Buyer purchase order or other business forms or in correspondence or elsewhere or implied by trade, custom, practice or course of dealing unless specifically included or varied in writing by a director or other authorized representative of SIC which are different from or in addition to the terms stated herein. "Buyer" means the person or entity whose order for the goods is accepted by SIC. "Goods" means the goods (including any installment of the goods or any parts of them) which SIC is to supply in accordance with these conditions. Any reference in these terms and conditions to singular includes plural.

1. Acceptance of Orders

a) All orders are subject to the approval of SIC, and SIC shall not be committed to honor any order until SIC has provided to Buyer written acceptance of the order.

b) Buyer has 3 business days from issue of order acknowledgement to make any adjustments including but not limited to shipping location, fabrics, finishes, model specification, etc. Following the 3 days the order is accepted and any changes or modifications are subject to additional charges and restocking fees.

2. General Terms of Payment and Financial Requirements

a) Terms of payment are NET 30 DAYS from date of invoice, except where otherwise specified in writing by SIC. Credit amounts are subject to satisfactory references and verification by our credit insurers (Euler Trade indemnity). Time of payment shall be of the essence for all contracts between SIC and Buyer.

b) A LATE PAYMENT CHARGE OF 2.5% PER MONTH WILL BE IMPOSED ON ANY PORTION OF ACCOUNT NOT PAID WITHIN TERMS STATED ON INVOICE. However, if this rate exceeds the maximum rate permitted under applicable law or regulations, the charge shall be reduced to the maximum allowable rate.

c) SIC may offer special payment and/or shipment terms. In such event, these special terms shall supersede the general terms of payment and/or shipment, provided that such special terms are fully stated in a SIC INVOICE, signed by an authorized representative of SIC.

d) If Buyer shall

(i) commit any breach hereunder.

(ii) file for or become subject to bankruptcy or receivership.

(iii) liquidate or cease business.

(iv) make arrangement with or composition for the benefit of any of his or its creditors; or

(v) if in the opinion of SIC, Buyer's credit becomes impaired, SIC shall still have the following rights and remedies in addition to any other rights and remedies provided by applicable law.

(i) All sums shall become immediately due and payable, notwithstanding any credit terms previously in effect.

(ii) SIC may refuse any order placed by Buyer.

(iii) SIC may cancel any accepted orders or delay shipment of any order without any liability to Buyer, therefore.

(iv) No order may be cancelled by Buyer without SIC's consent in writing, and such cancellation will be subject to the below charges:

Fabric cut: 25% / Specials: 75%

Production Complete: 50% / Specials: 100%

Finished goods not shipped: 75% / Specials: 100%

Shipper will not accept returns

(v) If credit previously has been extended by SIC to Buyer, and SIC elects to make further sales to Buyer, SIC may require payments on a C.O.D. or cash-in-advance basis.

(vi) In the event collection of sums due from Buyer to SIC is referred to lawyers or debt recovery agents or if proceedings are brought to collect such sums or to enforce the rights of SIC, Buyer agrees to pay all costs and reasonable fees, including attorney fees and such costs and fees incurred in any proceedings or appeal and in executing on any judgement.

e) SIC shall have the right to change its financial requirements of Buyer at any time.

f) Prices stated do not include sale or use taxes, tariffs, and any other governmental changes, taxes, or duties payable by SIC, which will be added to invoice wherever applicable. If any of the foregoing changes are assessed after delivery of Goods, Buyer will pay same upon demand of Seller.

g) SIC shall be entitled to apply order surcharges due to economic conditions including but not limited to materials, labor, and transportation.

h) SIC shall be entitled to a general lien on any Goods and other property owned by Buyer in SIC's possession (although the Buyer may have paid for the same in full) in satisfaction of the whole or part as the case may be of the unpaid price of any Goods sold and delivered to Buyer under any contract. SIC shall be entitled to offset any sum or sums owing by it to Buyer against any sums owed by Buyer to SIC.

3. Warranty

SIC provides a comprehensive warranty on its products of up to ten (10) years following delivery by SIC to Buyer. Any remedy claimed for failure of such warranty shall be only upon the terms and conditions as limited by this Agreement. Buyer must notify SIC, in writing, of any claimed defect as soon as practical after discovery thereof by Buyer. Upon such notification, SIC may, at its option, confirm that the Goods are, in fact, defective. Upon such determination, SIC may, at its option, either

a) repair such defective Goods at Buyer's location at no cost to Buyer or

b) require that Buyer return the defective Goods as set forth in the following Section 4 for either replacement by SIC or refund of the purchase price (at SIC's option). Buyer's remedies for any breach of warranty shall be limited as set forth herein and any other remedy is hereby waived by Buyer (including any claim for consequential damages, loss of profits, good will, reputation, bodily injury, or claims from third parties). In no event shall SIC's liability to Buyer (whether for breach of warranty, breach of contract, negligence, misrepresentation, or otherwise) exceed the cost of the Goods which gave rise to such claim liability. SIC does not accept (and expressly disclaims) any responsibility for electrical work installation which SIC's personnel do not supervise and all electrical installation must be undertaken by Buyer through a competent and qualified licensed electrician.

c) A full warranty statement is available on request, published in the relevant company literature and stationery and shown on the website.

4. Returns and Replacements

Defective Goods will be accepted only with prior authorization from SIC's head office and receipt of SIC's RETURN/AUTHORIZATION NUMBER. Goods returned are not to exceed quantity authorized. All returns must have freight prepaid. Credit will be issued (or Goods replaced) only after Goods are inspected and approved and will be based on Buyer's cost for the Goods in question, less any costs for transport and re- packaging.

a) Goods defective on delivery may be returned for exchange or full credit.

b) Goods incorrectly delivered by SIC may be returned for full credit.

c) Goods incorrectly ordered are not able to be returned.

5. Changes

a) SIC shall have the right to Reduce or increase prices to Buyer at any time without prior notice, except with respect to orders which have been accepted prior to such price modification.

b) SIC may at any time add, change or cease making available any Goods without notice to Buyer, and Buyer shall have no claim against SIC for failure to furnish Goods of the type previously sold.

c) SIC may at any time change warranty without incurring any liability to Buyer.

6. General Terms of Transport

a) Unless otherwise quoted All shipments are F.O.B. point of shipment, freight prepaid and allowed, excluding fuel surcharges. Shipments outside of the contiguous United States and Canada are freight prepaid and allowed to port of exit. SIC reserves the right to select the most appropriate carrier and routing on all shipments that are shipped. SIC reserves the right to implement a fuel surcharge. Buyer shall accept all risk of loss or damage to the Goods while in transit.

b) Buyer alterations to accepted orders after acknowledgment that incur additional freight costs due to changes such as, but not limited to split shipping, change of location, tail gate deliveries, delivery appointments, etc. will incur additional freight charges and fees to be paid by the Buyer due to their change requests.

c) Delay in transport or delivery of any particular installment or delivery of faulty Goods in any one installment shall not entitle the Buyer to repudiate the whole order nor relieve Buyer of its obligation to accept and pay for the remaining installments.

d) SIC shall endeavor to make deliveries within a reasonable time. HOWEVER, SIC SHALL NOT BE LIABLE TO BUYER FOR ANY DAMAGES, WHETHER INCIDENTAL, CONSEQUENTIAL OR OTHERWISE, FOR FAILURE TO FILL ORDERS, DELAYS IN DELIVERY OR ANY ERROR IN THE FILLING OF ORDERS.

e) Time of delivery shall not be of the essence to any contract to which these Terms and Conditions apply and shall not be made so by the service of any notice.

f) Notwithstanding delivery and passing of risk, the Goods shall remain the property of SIC until such time as Buyer shall have paid to SIC the agreed price in full (together with any accrued interest) and all other amounts owned by Buyer to SIC in respect of any other contract for the sale of Goods and until such payment the Buyer shall hold the Goods as Bailee on behalf of and in a fiduciary capacity for SIC and the Buyer shall insure the Goods for their full market value. SIC shall have the right, at its option, to file one or more UCC financing statements with governmental offices to indicate SIC's rights as owner of such Goods (or as security interest holder in such Goods and for purposes thereof, this Agreement shall be deemed a Security Agreement).

g) In the event that the Buyer sells the Goods prior to payment to SIC in full, the Buyer acknowledges that the entire proceeds of sale are held in trust for SIC and shall not be mixed with other monies or paid into any overdrawn bank account and shall at all times be identifiable as SIC's monies.

7. Freight Delivered Program

To delivery locations in the contiguous United States and Canada, all pricing in this specification guide freight is FOC (free of charge) in excess of over $8,000.00 list. FOC standard delivery is provided via common carrier which is included in the product pricing. Order minimums do apply:

- Orders of less than $8,000 list will be assessed a handling charge of $150 net per order.

FOC Standard Freight Delivered pricing is standard dock to dock service and does not include delivery appointments, inside delivery, installation, unpacking, removal or disposal of cartons and/or packaging materials. Should additional charges be incurred by SIC due to delivery issues after initial billing, the purchaser is liable for the additional charge and will be invoiced.

Should the purchaser choose to provide their own transportation, their purchase order must clearly state CUSTOMER PICK-UP. SIC will notify the customer when the product is ready for pick up and the customer is required to arrange for pick within 5 business days of the notified availability date. Failure to pick up goods within the time frame is subject to additional warehousing fees.

All shipments are F.O.B. point of shipment, freight prepaid and allowed, excluding fuel surcharges. Shipments outside of the contiguous United States and Canada are freight prepaid and allowed to port of exit. Allermuir reserves the right to select the most appropriate carrier and routing on all shipments that are shipped FOC delivered pricing. SIC reserves the right to implement a fuel surcharge.

Any charges arising from failure to receive a shipment, rerouting while in transit, or carrier storage charges are not included in prices or quotations and are subject to additional charge.

- FOC Standard Freight Delivered pricing is standard dock to dock service and does not include:
- Orders requiring special services are subject to additional charges. The following services are common requests, but are not limited to the following:
- Reconsignment from original destination to new destination
- Change of Tags/Address/Phone numbers on shipments that have already departed
- Split Shipping
- Refused/Returned Freight – Freight refused at destination either to be redelivered at a later time/date or returned to The Senator Group.
- Detention – holding or detaining the truck beyond allotted delivery time
- Weekend delivery – available Friday after 3:00 PM through Sunday night and/or Holiday
- Inside Delivery – inside through the first set of doors on the ground floor
- Liftgate delivery – from the trailer to ground level

Terms and Conditions of Sale

• White Glove Delivery – services include bringing shipment inside, unpacking, setting product in place, and removal of packaging materials.

• Delivery Appointments – request for a specific time and date.

All services beyond a dock-to-dock delivery require quotation for each service and shipment prior to order placement.

SIC products are carefully inspected before they are packaged for shipment. Allermuir is not responsible for items damaged during shipment. The transportation company assumes the responsibility of delivering

the goods in good condition when the bill of lading is signed. DO NOT refuse merchandise damaged in transit. Instead

make note on the delivery receipt of damage and contact SIC Internal Sales Support Concealed damage must be reported

within 10 business days after receiving the shipment. SIC will provide replacement products or parts at our discretion. Labor reimbursement is not included on concealed damage claims.

SIC will ship completed goods on or before the acknowledged ship date. Orders that are delayed from shipping by customers request may incur storage fees of $10 per pallet/ day if the goods are delayed more than 5 business days from acknowledged ship date.

8. Forceajeure

a)SIC shall not be liable to Buyer for any loss or damage which may be suffered by Buyer as a direct or indirect result of the supply of Goods by SIC prevented, hindered, delayed, cancelled or rendered uneconomic by reason of circumstances or events beyond SIC's reasonable control ("force majeure circumstances") including, but not limited to, strikes; lockouts; labor disputes; act of God; war; riot; civil commotion; malicious damage; compliance with any law or governmental order, rule, regulation or direction; accident; breakdown of plant or machinery; fire; flood; storm; difficulty or increased expense in obtaining workers; material or transport or other circumstances affecting the supplyof the Goods or of raw materials by SIC's normal source of supply of the manufacture of the Goods by SIC's normal means or the delivery of Goods by SIC's normal route or means of delivery.

b)In force majeure circumstances, SIC may (in its sole discretion) terminate any contract for the supply of goods pursuant to the Terms and Conditions or cancel delivery of Goods to Buyer or may, with the agreement of the Buyer, deliver Goods at an agreed rate of delivery commencing at a reasonable time after the termination of the force majeure circumstances.

c)If due to force majeure circumstances SIC has insufficient stocks to meet all its commitments, SIC may apportion available stocks between its customers at its sole discretion.

9. Miscellaneous

a)If any of these Terms and Conditions is held to be invalid, illegal orunenforceable in any respect, whether in whole or in part, such invalidity, illegality or unenforceable shall not prejudice the effectiveness of the rest of the remainder hereof.

b)No waiver by SIC of any breach of contract by the Buyer shall be considered as a waiver of anysubsequent breach of the same or any other provision.

c)Any contract to which these Terms and Conditions shall be governed by, and construed in accordance with, the laws of the State of Ohio. Buyer consents to the jurisdiction of, and venue in, state and/ or federal courts sitting in Lucas County, Ohio sitting in Lucas County, Ohio.
